

Flash is Here! Are you having troubles viewing videos in the IME Video Library because your computer isn't playing nicely with Quicktime? If so, we now are offering all videos in a Flash player. Once in the IME Video Library, simply click on the image of the presenter and the video will begin to play. Also notice that you can make the flash video full-screen by clicking on the 'full-screen' button on the lower right side of the player.
